

MANAGED CARE CONSULTANTS, INC. NEVADA PROFILE

At **Managed Care Consultants, Inc., (“MCC”)** we have been providing solutions in managed care, workers’ compensation, claims administration, and case management since 1988. We retain our clients by providing the services they need, creating an integrated delivery system that makes those services easy to access and use, while always seeking out better and more efficient solutions.

MCC provides our clients with the largest and most comprehensive Preferred Provider Organization in the state of Nevada. We have contracted with over **3600** physicians, specialists, ancillary providers, and hospitals throughout the state. In Las Vegas alone we are contracted with all **10** local area hospitals. What does this mean for you? Security. Peace of Mind. Savings.

MCC is widely known throughout Nevada for its experience in provider network development and maintenance, quality utilization management programs, third party administration of employee benefits and workers’ compensation plans. With our extensive involvement in the managed care market we have a clear understanding of the needs and goals of our local community.
